1	Moderate	1.4
2	Moderate	3.2
3	Moderate	3.2
4	Easy	0.6
5	Easy	0.2

## NEED ASSISTANCE DURING YOUR STAY?

Please contact the park office, gatehouse or other DNR personnel.

**Park Office: 812-338-5589**

DNR Dispatch: 812-837-9536. Dial 911 for all emergencies.

## PARK OFFICE HOURS:

Mon.-Fri. 8:30 a.m.-4:00 p.m.

Weekend & seasonal hours vary.

## INTERPRETER-CONDUCTED WALKS

Join us for scheduled walks and hikes that may last 30 minutes to three hours. These walks are an enjoyable way to see the lake, learn about nature and history, and meet other people.

## HIKING OPPORTUNITIES

Walking is a great way to see the natural world. Wildflowers, the scent of pines, and the sound of birds are best seen and experienced away from roads.

A limited number of waypoints have been placed along the trail. Should you become unsure of your location, remember there is one main ridge with a few short spurs; walking uphill will eventually bring you to the ridge on which the Nature Center is located.

## THINGS TO LOOK FOR

- Den Trees: Beech and other trees provide homes and food for squirrels, woodpeckers, raccoons, and other animals.
- Eastern Red Cedars are common “pioneers” in abandoned fields and grow well in poor soils. Cedars also provide food and shelter for wildlife.
- Rock Shelters were used by American Indian hunting parties and later as livestock pens by settlers. Notice the animal burrows often found near the base.
- Wildlife Signs are abundant. Look for tracks, droppings, nests/dens and trails. Many animals are seldom seen because they come out only at night or are secretive.

### Please let wild animals remain wild.

Feeding deer is prohibited. Feeding of wild animals can result in harm to both animals and people. Animals who depend on handouts become a nuisance to visitors and a danger to themselves. Please lock up all food and coolers inside cars or campers. Roll up car windows tightly.

## TRAIL DESCRIPTIONS

NAME & DESCRIPTION	MILES	DIFFICULTY
MAIN TRAIL	6.5	Moderate

Begins at the Nature Center. Well-maintained but with a small number of signs. Average hiking time is 3 to 4 hours. Many visitors enjoy walking to Totem Rock, a large rock shelter that was used by American Indians and early settlers. “Waypoints” back to the Nature Center are at each intersection. Many of these are marked with location signs designated as A, B, C, D or E.

**PLEASE STAY ON MARKED TRAILS.**

# PATOKA LAKE HIKING TRAILS

Patoka Lake's hiking area contains approximately 1,000 acres on a peninsula north of the Nature Center-Fisherman's Campground road. This area was set aside to provide visitors an opportunity to explore on foot a large roadless tract of southern Indiana uplands. Hikers can spend an hour or a day exploring mature beech-maple and oak-hickory forest, rock shelters and outcroppings, pine plantations, abandoned farm fields in various stages of plant succession, and panoramic views of the lake. Bird watchers will find the diverse area supports many native species, while the quiet hiker or photographer may stalk deer, small mammals or even coyotes.

Features of interest include access lanes and an overlook. Trails connect points of interest along the ridge top to the lake shore, and are rugged and steep in places.
